# DEBT COLLECTION

We recover bad debt, stemming from unpaid accounts/debts, unpaid invoices or judgements via the court against a person/s or Company.

Through our years of investigating and tracing, we have discovered many effective tools to recover bad debt. Our greatest negotiating skill is to be in the position to list a Person/Company with the Credit Bureau for bad debt.

This has proven to be a very effective tool and it is evident in our high success rate.

The consequence of a person/company being listed on the Credit Bureau is very damaging and difficult to rectify. We can further repossess assets to cover the cost of the outstanding debt.

As an additional service we will facilitate the communication between the Attorneys and the Client, to ensure a positive outcome is achieved.

# TRACING

We provide tracing in and around South Africa and Internationally.

We have over the years established many means of tracing individuals that have resulted in our high tracing successrate.

We can further log trace alerts on ID numbers, as well as Company Registration Numbers which has a validity for a year.

This allows for us to be notified automatically when such numbers are used.
